DOI: [10.7910/DVN/9K37FF](https://doi.org/10.7910/DVN/9K37FF)

El “Catálogo de Manuscritos Digitalizados de Guatemala y México en Family Search” organiza y describe de forma general 18,411 microfilmes (aproximadamente) de manuscritos en diversos fondos y archivos que se encuentran en la plataforma Family Search de La Iglesia de Jesucristo de los Santos de los Últimos Días, conocidos coloquialmente como los mormones.

Family Search es la opción digital del proyecto de microfilmación que llevaron a cabo los mormones alrededor del mundo en diferentes décadas del siglo XX. Es un invaluable recurso para la investigación histórica, sobre todo cuando hoy día muchos archivos se hallan cerrados a la consulta. Las imágenes corresponden a esos microfilmes y en este catálogo se ha respetado la forma en que fueron organizados y descritos en caso de que alguien necesite llevar a cabo una consulta física de los microfilmes.

Este catálogo registra los manuscritos relacionados a Guatemala y México, principalmente, pero se incluyen algunos fondos relacionados a El Salvador, Honduras y Nicaragua. En Family Search es posible encontrar otros fondos y manuscritos en línea relacionados a estos últimos países.

Una distinción de este catálogo es que NO se incluyen los registros religiosos y civiles de nacimientos, matrimonios y defunciones, que pueden encontrarse sin dificultad en el buscador de la plataforma de Family Search. Se le dio prioridad a aquellos fondos y manuscritos que están en Family Search pero son poco consultados y que son indispensables para la investigación histórica.

Organización del Catálogo

El catálogo sigue la descripción de Family Search, organizando la información por países, archivos, fondos y describiendo cada uno de los registros de acuerdo a la descripción de Family Search. Se incluye el título del fondo de cada microfilm, el número de microfilm, el número de la Digital Genealogical Society (DGS) y el Uniform Resource Locator (URL)/ enlace directo a cada microfilme. Instrumentos de Consulta

La mayoría de los fondos descritos en este catálogo no tienen instrumentos de consulta. Existen guías para las colecciones de registros parroquiales coloniales de México y Guatemala. David J. Robinson elaboró el inventario de México, *Research Inventory of the Mexican Collection of Colonial Parish Registers* (University of Utah Press, 1980), y el de Guatemala lo realizó Shirley A. Weathers, *Bibliographic Guide to the Guatemala Collection* (University of Utah Press, 1981). Un par de listas de los microfilmes de Guatemala que contienen padrones, tributos,

correspondencia y otros papeles se pueden descargar [AQUÍ \(particulares\)](#) y [AQUÍ \(generales\)](#). Sólo está registrado el lugar (pueblo o jurisdicción), tema, años y número de microfilme.

Algunos fondos del Archivo General de la Nación (AGN) de México en Family Search cuentan con instrumentos de consulta y coinciden con los microfilmes. Aquí se utilizan los catálogos/instrumentos de consulta elaborados por Linda Arnold. Cada uno de los fondos listados están vinculados al Portable Document File (PDF) que les corresponde:

También existe una versión del mismo índice en la página de la de la Universidad Rafael Landívar [AQUÍ](#).

Existen guías e instrumentos de consulta de algunos archivos y fondos que aquí se registran, pero no he encontrado la correspondencia con los microfilmes de Family Search.

Acceso a Family Search

El acceso, consulta y descarga (individual) de imágenes es GRATUITA y lo único que se solicita es el registro en la plataforma.

Índice del Catálogo

La mejor forma de conocer los diferentes fondos y repositorios en este catálogo es utilizando la opción de mostrar “marcadores” en donde la información se despliega por país, archivo y fondo.

Por último, la base de datos (Excel) y este catálogo están a disposición de cualquier persona interesada en la historia de Guatemala y México. Si desean citar, recomendamos seguir el enlace del DOI en el título del catálogo.

¹ Al finalizar este catálogo me di cuenta que no incluí los registros de este fondo. Se pueden consultar los 480 microfilmes en: <https://www.familysearch.org/search/catalog/670018>.
